Homer G. Peterson, mayor pro tem of the city of Riverside and a 1976 graduate of Cal State, is the newest member of the University Advisory Board.

Peterson participated in the commencement ceremonies and has attended his first meeting of the Advisory Board, a group of civic and community leaders which meets periodically with President Anthony H. Evans and university administrators to build channels of understanding between the university and the community at large.

The firm, founded about two years ago, provides security for commercial and residential properties. Prior to starting his own firm, Peterson was vice president of Precision Security Systems in Riverside for two years and a police officer with the Riverside Police Department and the San Bernardino Sheriff's Department for 10 years. He attended Cal State full-time, while working in law enforcement, also on a full-time basis. Peterson received his B.A. in Spanish in 1976.

Active in the Riverside community, his civic and professional activities include president of the Inland Empire Alarm Association, member of the Riverside Kiwanis Club, and boards of directors of the Riverside Visitors and Convention Bureau, the Community Action Agency and La Sierra Campus of Loma Linda University.

Peterson and his wife Allison, a teacher at Riverside Poly High School, have three children: Adam, 11; Melissa, 9; and Ashley, 6 months.

Theatre Arts Professor's New Play Opens In July

Dr. William Slout's new play, "The Burial of Alma," will be premiered at Cal State in July. The comedy will open July 18 for a three-night run in the Recital Hall. Sponsored by the Music Department to benefit its scholarship fund, the comedy centers around the difficulties a professor of history at a Southern California university encounters in coping with his wife's successful career.

Starring with Dr. Slout will be his wife, Marte Boyle Slout, Harry Cauley, an actor, playwright and producer, and Laurie Divirian of Redlands.

The set will be designed by O.P. Hadlock with the lighting and sound by Phillip D. West. Curtain time will be 8:15 p.m. Tickets, which will go on sale Monday, July 8, in the Music Department office, are \$5 general admission and \$3 for students and senior citizens.

Retraining Grant Given For Computer Course

The CSU Chancellor's office has funded more than \$37,000 to retrain three faculty members to teach courses in introductory computer science. The proposal by Dr. Frank Chimenti (Computer Science) is to retrain one member from each of the schools of Social and Behavioral Sciences, Humanities, and Business and Public Administration. The goal is to free computer science faculty to teach advanced undergraduate and graduate level courses in computer science, an area recognized as difficult to hire experienced faculty.

Volunteers from each of the three schools are now being sought. Interested faculty members may apply through their respective deans immediately. If no volunteers come forward, the schools may suggest possible candidates. The retraining program will involve faculty members actually enrolling in the basic computer science sequence for the coming year. They would begin teaching the same courses the following year.

1278 Students Register For Summer Sessions

A record 1278 students registered June 18 for summer session classes. The classes began June 20 for session I (5 weeks), IV (8 weeks) and V (10 weeks). There is still time to register between July 22-26, in SS 100 for sessions II and III, which begin July 29. Students may enroll in extended education courses, taught at various locations throughout the summer, by calling 887-7527.

Telephone users may have noticed that they no longer can dial "6" to reach telephones in Riverside or Redlands. The direct service line, called the Colton lines, were terminated June 1. Callers dialing numbers directly are reminded that regular charges apply and their lines will be billed for toll calls. One incoming line has been retained on 825-2310.

CORRECTION: In the story about the faculty development grants on page 1 of the June 14 Bulletin, we should have indicated that grant approval of the Faculty Affairs Committee recommendations is made by Dr. Ward McAfee, acting vice president, academic affairs instead of Dr. J. C. Robinson, associate vice president for academic personnel. We regret any misunderstanding caused by this error.
